The authors regret that there are some errors in the sample labels of Fig 6 (images. b and f) in the published manuscript. The figs. a–e all belong to ceramic sample MS.115-2 and fig. f is assigned to a ceramic sample, S.309. In accordance with the figure caption and its explanation, the sample label b. MS.611 is corrected to c. MS.115-2 and is substituted for fig. c. The image MS.611 is added to fig. b. The image MS.115-1 is substituted for fig f. Furthermore, some literature cited in the text but not included in the Reference list are added here. Reference number 33 has been revised and the in-text citation (Duttra, 2016) on page 8 is corrected to (Dutra et al., 2019).
